# Ananya Rao

Senior document engineer · Ahmedabad, India · ananya@example.com

## Experience

**Principal Engineer — Meridian Docs** *2021 — present*

- Rebuilt a DOCX rendering pipeline covering tables, images, headers and Indic scripts.
- Cut conversion time for 1,000-page documents to under three seconds.
- Owned fidelity metrics and the regression corpus used for releases.

## Education

B.Tech Computer Science — University 1 · 2010

B.Tech Computer Science — University 2 · 2011

B.Tech Computer Science — University 3 · 2012

B.Tech Computer Science — University 4 · 2013

B.Tech Computer Science — University 5 · 2014

B.Tech Computer Science — University 6 · 2015

## Selected projects

**Project 1:** Delivered a document conversion workspace with real previews, page management and verified export settings.

**Project 2:** Delivered a document conversion workspace with real previews, page management and verified export settings.

**Project 3:** Delivered a document conversion workspace with real previews, page management and verified export settings.

**Project 4:** Delivered a document conversion workspace with real previews, page management and verified export settings.

**Project 5:** Delivered a document conversion workspace with real previews, page management and verified export settings.

**Project 6:** Delivered a document conversion workspace with real previews, page management and verified export settings.

**Project 7:** Delivered a document conversion workspace with real previews, page management and verified export settings.

**Project 8:** Delivered a document conversion workspace with real previews, page management and verified export settings.

**Project 9:** Delivered a document conversion workspace with real previews, page management and verified export settings.

**Project 10:** Delivered a document conversion workspace with real previews, page management and verified export settings.

**Project 11:** Delivered a document conversion workspace with real previews, page management and verified export settings.

**Project 12:** Delivered a document conversion workspace with real previews, page management and verified export settings.

**Project 13:** Delivered a document conversion workspace with real previews, page management and verified export settings.

**Project 14:** Delivered a document conversion workspace with real previews, page

management and verified export settings.
